RULES & BY-LAWS

Club Activities
Only those activities that have been approved by Club committee, or have been minuted in a general meeting shall form official Club activities

Trip Leaders
On trips, the Trip Leader has absolute authority over the whole trip. Trip Leaders must ensure that members and visitors are aware of all relevant Club By-Laws and Rules.

Insurance
All participants attending regular Club activities and trips are required, on request, to produce to Trip Leaders proof of Comprehensive or Third Party Property Insurance applicable to the vehicle they are driving and Ambulance Cover.

Legal Drivers
All participants attending regular Club activities and trips are required to be licensed drivers, not on any suspension, and not under the influence of alcohol or other drugs while participating in a Club trip/activity.

Roadworthy Vehicle
All participants attending regular Club activities and trip must ensure their vehicle is in a roadworthy condition, that it is registered, regularly maintained according to manufacturer specifications, and that there are not illegal modifications that would potentially endanger the lives of others in the event of a collision. Any individual found to be in breach of these conditions may be subject to non-coverage from Club activities and may no longer participate in the event.

Dogs
On trips where dogs are permitted, they must be kept under control at all times, preferably on a leash.

Children
Be responsible for your own children. Do not rely on other people, especially other children, to watch them for you. Young children should be supervised at all times.
If older children want to go for a walk, give them a hand held radio and teach them how to use it to keep in touch with the main camp.
Remember not all people on trips have children with them and they may not always be tolerant of young children in their camping area. Don't let yours become a nuisance to others.
When a recovery is taking place; use a bit of common sense and keep children out of the way, preferably in a car. A child under foot in these situations is dangerous.
Children and fires do not mix. Children can sustain severe burns by running, pushing and shoving each other around a camp fire or playing with sticks in the fire. Keep your children safe and under control whilst around fire.
Water is an attraction for children. While it is a lot of fun to camp beside a creek or river, young children require supervision at all times near water. Never assume that because there are other people in the water, that they will be watching your child.
Children can get in to trouble very quickly – Don't let your child become a victim!

Off Tracks
Vehicles are to stay on existing roads and tracks except in areas where permission has been granted.

Camping/Litter
Care must be taken to minimise damage to vegetation. No litter or rubbish is to be left at site.

Anti-Social Behaviour
Offensive behaviour will not be tolerated. Trip Leaders are to be informed as soon as possible of any incidents, so appropriate documentation can be filled out, and further action can be taken.
