

Bryant High School
INDOOR PERCUSSION
2018-2019

What is Indoor Percussion?

A new and EXCITING outlet for percussion students to grow in the marching arts!

This group will be an engaging visual and musical ensemble that will perform and compete. It marries elements of music performance, marching and theater.

Consists of a marching battery section and a front ensemble section. It's very similar to a fall marching show - but inside.

We will be competing in the MCCGA circuit in Missouri.

How involved and busy will this keep my student?

Interestingly enough, your student will learn ALL of their music during our 7th period Percussive Arts class.

There will be a few after school rehearsals for battery members to learn drill and put the full ensemble together. Those begin in mid-January.

The Logistics:

- There will be individual responsibility.
- There will be monetary obligations.
- This is a new adventure, so we will ALL be learning as we go.

What is the **THEME** of the show?

In keeping with the current fall show, the theme of this show is GALACTIC!

We decided to keep the same theme to keep costs down.

It's not the same music or material. Other than the uniforms, we may reuse some props from this fall. But that's about where the similarity ends.

All of the music and audio demo has been shared via Google Drive and Google Classroom. Please ask your student to show you they have!

THE CALENDAR

How does this calendar affect everyone?

It will take the entire group to be prompt, focused and be at all rehearsals. When after school rehearsals begin, it will flow out of 7th period.

The **calendar** is mapped out in a way to get the most done in the least amount of time.

If a student misses for whatever reason, the entire ensemble suffers for it.

Remember, this is a **required** part of our class. Grades will be given for all rehearsals and performances.

- This calendar could (and probably will) change a bit from time to time depending on unexpected conflicts. We will let you know 2 weeks in advance if something like that happens.

What will we wear to rehearsals and performances?

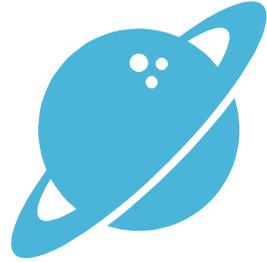

REHEARSALS:

Comfortable clothing that you can bend and stretch to.
No jeans!

PERFORMANCES:

The fall competitive space suits (I mean, uniforms.)
For those that weren't part of that organization, we will try to find a used one.

Is there a cost involved?

Yes, but it is minimal and pays for the bare necessities.

- » We are going to 3 competitions that all take place in the MCCGA (Mid-Continent Color Guard Association) Circuit in Missouri.
- » We will have to pay for mileage.
- » We are taking a van to pull the trailer
 - ◇ We'll have to pay for gas.
- » Our entry into the MCCGA circuit will have to be paid for.
- » We will be staying overnight in Branson for one competition. That will also have to be paid for.

So, will I need to sell my first-born?

No. Well, not unless you just want to, but here's the cost breakdown:

Mileage is 1,434 x \$1.50/mile	=	\$2,151
Gas for the van	=	\$210
Cost of MCCGA entry	=	\$650
Cost of rooms	=	\$640*
Grand Total	=	\$3,651
Divided by 23 Students	=	\$158.74 (\$160)

- **Students will be responsible for their meals on trips. Plan for about \$10 per meal.**
- **Cost could vary some depending on tax.**

What can help offset this cost?

Fundraisers! YAY!

But seriously. We have two fundraisers planned to help with this. Most of this info will head your way after Thanksgiving.

BOSTON BUTTS!

Boston Butts. We are checking into getting this going. It's very popular around the state for fundraisers.

POPCORN!

We did this last year to help with the cost to Disney. Wasn't widely popular, but did generate some revenue.

Where can I see examples of **INDOOR PERCUSSION** in action?

If you want to see groups that have participated at this event, go to YouTube and search for these ensembles:

Siloam Springs Indoor Percussion

Lee's Summit Indoor

Odessa High School Winter Drumline

Joplin High School Indoor Drumline

Republic High School Indoor Percussion

Kickapoo Percussion

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change fill color and opacity.
- Change line color, width and style.

Isn't that nice? :)

Examples:

Now you can use any emoji as an icon!

And of course it resizes without losing quality and you can change the color.

How? Follow Google instructions
